EDUCATION

Northeastern University, Khoury College of Computer Sciences

Boston, MA

Candidate for Bachelor of Science in Computer Science and Design

September 2023 – April 2027

GPA: 3.7/4.0

Relevant Coursework: Foundations of Software Engineering (graduate course), Algorithms, Discrete Structures, Cloud Computing (partnered with AWS Skills Center), Prototyping with Code, Database Design, Object-Oriented Design, Human-Computer Interaction, Designing Interactive Experiences, Fundamentals of Computer Science 1 & 2

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, Java, Kotlin, Dart, Processing, C#, C, C++, MATLAB, Assembly
Frameworks/Libraries: React, React Native, Node.js, Next.js, PyTorch, NumPy, TensorFlow, Flask, OpenAI Embeddings
Tools: Git, Docker, AWS, Azure, Jenkins, OpenShift, MySQL, PostgreSQL, MongoDB, Pinecone, Cassandra, Pandas, Tableau
Project Management: Excel, wireframing, storyboards, Unified Modeling Language diagrams, Jira, Agile (Scrum, Kanban)
Operating Systems: Windows, Linux, macOS, iOS, Android

EXPERIENCE

Oracle

Seattle, WA

Software Engineer Intern

June 2026 - Present

- Develop a Codex/MCP skill to automate on-call reports with summaries, trends, and follow-up items for **40K employees**
- Build an agentic platform that leverages MCP skills to accelerate the development lifecycle, from planning to deployment

Microsoft

Seattle, WA

Software Engineer Intern

January 2026 – June 2026

- Engineered a centralized developer platform with **16 tools** and **10 static UI storybooks** for rapid iteration and testing
- Built a synthetic data pipeline for scalability and reliability testing across observability platforms, supporting **500K** agents
- Improved reliability and communication quality of an AI digital coworker by adding telemetry-based response tracking, visibility in Teams, and enabling natural third-person phrasing

MFS Investment Management

Boston, MA

DevSecOps Intern

August 2025 – December 2025

- Built a RAG pipeline using **FastAPI** and **OpenAI** to analyze **150+ repositories**, enabling queries on repo performance
- Managed **Kubernetes** and **OpenShift** clusters for containerized deployments, ensuring scalability and high availability

Google

Seattle, WA

Software Engineer Intern

May 2025 – August 2025

- Led development of a proxy solution for Flutter web, **accelerating project completion by 50%**
- Improved DevEx for **2 million engineers** by implementing an open-source web development configuration file

Popper

Corona, CA

Mobile Engineer Intern

May 2024 – September 2024

- Increased engagement **500%** for events and market screens through intuitive UI redesign and streamlined workflows
- Implemented account deletion and deals features for **500+ users**, **20+ businesses** using **React Native** and **Firebase**
- Integrated CI/CD for rapid feedback integration and debugging via **TestFlight**, increasing active users by **30%**

theCoderSchool

San Mateo, CA

Coding Instructor

January 2022 – July 2024

- Mentored 10 students in Python using projects that build creativity, problem-solving skills, and basic coding skills
- Instructed after **9 years of private coding lessons** and ranking **3rd** among **5,000** in the nationwide Coder Games

PROJECTS

Flashcard SaaS | *Stripe API, Clerk API, OpenAI API, Google Cloud, Next.js* | Personal Project July 2024 – January 2026

- Built AI-generated flashcards to establish STEM foundation for preschool and elementary students
- Partnered with **Northeastern Jumpstart** and 3 preschools to research how underserved children learn best
- **1 of 3 Northeastern Research Justice at the Intersections Scholars** recognized for making technology accessible

Headshot News | headshotnews.com | *HTML/CSS, React, Node.js, Google Cloud* | Group Project May 2024 – July 2024

- Designed full-stack news aggregator using **Firebase** for daily article updates and web scraping from 5 Esports sites
- Placed **3rd place** in the Northeastern Oakland Startup Challenge due to our focus on A/B testing and user research

Nutritional Pal | *AI-Bloks, RAG, Python, Tkinter, pytsx3* | Personal Project May 2024 – June 2024

- Evaluated **3 open-source LLMs**, increasing accuracy by 50% through optimized data configuration
- Integrated **natural language processing** and speech recognition for voice input and text-to-speech output
